Allowable Subject Matter

1. Claims 1-12 are allowed.

The following is an Examiner's statement of reasons for allowance:

The closest prior art is Vollmer (U.S. Patent No.: 6,064,689) and Dell-Imagine (U.S. Patent No.: 5,157,688) which are IDS documents of record. Vollmer teaches: a code division multiplex receiver in a mobile which receives a combined data signal over shared spectrum, samples the combined signal, estimates the channel response for the combined signal and determines the cross correlation matrix using the estimated channel response per col. 2 line 22-col. 3 line 38 and per col. 4 line 5 line 24 respectively. Dell-Imagine teaches: sampling the combined signal at multiple chip rates per col. 1 lines 22-25.

Claims 1-12 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims including:

“means for determining a cross correlation matrix using the estimated channel response; means for selecting a subblock of the cross correlation matrix; means for determining a Cholesky factor for the subblock; means for extending the Cholesky factor; means for determining the spread data vector using the extended Cholesky factor, a version of the channel response and the samples; and means for estimating data of the data signals using the spread data vector ” as specified in claim 1

“a single user detection device for determining a cross correlation matrix using the estimated channel response, for selecting a subblock of the cross correlation matrix, for determining a Cholesky factor for the subblock, for extending the Cholesky factor and for determining the

spread data vector using the extended Cholesky factor, a version of the channel response and the samples; and wherein the data of the data signals is estimated from the spread data vector ” as specified in claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert W. Wilson whose telephone number is 571/272-3075. The examiner can normally be reached on M-F (8:00-4:30).
